

# ANNOUNCING GSARA MEMBERS CW CLASS FOR BEGINNERS

Taught by Cy Stanway, K2CYS

If you want to learn CW from the very beginning Cy, K2CYS will be offering a class to GSARA members only in the Spring if there are at least 5 people committed to two hours a week (probably on a Sunday night) for 8 weeks. If you are interested, let Cy know at [k2cys@arrl.net](mailto:k2cys@arrl.net). You will need a paddle and a CW oscillator.

- Learn the Morse Code!
- Have real QSOs even in bad conditions!
- CW usually counts for twice as many points in a mixed-mode contest so now you can double your points!
- Astound your friends! Impress your neighbors!

Questions: Find Cy on the GSARA repeater or email him.
